B. S. · Northwest Tamarac

This totally unnecessary "newsletter" is nothing more than a Gelin campaign ad that I assume is paid for by the excessive and virtually unregulated \$25,000 per year/ per commissioner taxpayer funded slush fund personal budget that the Commission voted to give itself in the last budget confirmation. So many other bad things have been done with our tax money relating to this fund, with Gelin, and at least one other commissioner. It's at least a terrible shame and and an ethical violation and at worst an investigable attempt at financial crime in certain instances. Whatever happened to the investigation of Commissioner Bolton's "sponsored" taxpayer funded "free turkey gift cards" that ended up in another city? Tamarac residents want to know! Please, Tamarac residents, contact your District Commissioner and the Mayor, and perhaps the State, to let them know that they should rescind this over funded and shady perk and that the residents of Tamarac DEMAND for the Commission to be held accountable for their shady dealings with our tax dollars!
